

SUNSONG®

SWITCH PORT

PROTECTIVE SLEEVE

HEAT SHIELD

DISTRIBUTED BY:

Excellence Under Pressure!

OE QUALITY POWER STEERING PRESSURE HOSE ASSEMBLIES

- Precision engineered to exact form, fit, and function
- Hoses exceed OE and SAE performance standards
- Tubing is high-grade electroplated steel with zinc coating for corrosion resistance
- Every pressure hose is pressure tested before leaving the factory to ensure trouble free performance
- Rated to -40° temperature for superior cold weather durability
- Multi-layer reinforced rubber highly resistant to ozone, heat and oil

The following components are included where required:

- O-Rings, Gaskets, Oil Seals, and Copper Washer
- Heat Sleeves
- Bracket Bushings and Grommets
- Protective Sleeves, Bushings and Bumpers
- Counterweights
- Mounting clips where OE clip is not reusable
- Switch Port

Excellence Under Pressure!

OE QUALITY POWER STEERING RETURN HOSE ASSEMBLIES

- Precision engineered to exact form, fit, and function
- Hoses exceed OE and SAE performance standards
- Tubing is high-grade electroplated steel with zinc coating for corrosion resistance
- Crimped fittings (where OE), provides a higher pressure-rating than clamped connections
- Return hoses are pre-assembled (where OE), saving labor for the installer
- Hoses are rated to -40° temperature for superior cold weather durability
- Multi-layer reinforced rubber highly resistant to ozone, heat and oil

The following components are included where required:

- O-Rings, Gaskets, Oil Seals, and Copper Washer
- Heat Sleeves
- Bracket Bushings and Grommets
- Protective Sleeves, Bushings and Bumpers
- Mounting clips where OE clip is not reusable
