

SUNSONG®

Excellence Under Pressure!

EUROPEAN POWER STEERING PRESSURE HOSE ASSEMBLY VS. THE COMPETITION

Part No. 3403650
BMW Pressure Hose

BRACKETS

Matches OE design - Spot welded to tubing and are 3mm thick

vs. Clip on, only 1mm thick metal that risks early deterioration from rust

RUBBER MOUNTS

Attached to each bracket which eliminates vibration and noise

vs. Installer reusing - if rubber mounts are worn out, replacements are not available by themselves

INTERNAL TWO SIDED SILENCER

Reduces pulsation noise ensuring quiet operation

vs. Competitors often eliminate silencer to reduce cost of product

The Competition

OEM FIT, FORM AND FUNCTION

Import Direct Hose Assemblies for European Applications are Manufactured to Precise Specifications to Ensure OEM Fit, Form and Function
